JULY 2022

THE HOME QUARTER

Launching new client portal

We are excited to announce a new client service!

Our team at Agri-Energy Partners is always striving to discover new user friendly technology to better serve your needs in managing your oil and gas assets.

Thanks to some amazing research by our Operations Manager, Heidi Burzinski, we have discovered a new tool to support the management of your documents, leases, requests and communication with our team. This summer we will be carefully introducing you to a new client portal. "A client portal is a secure web-based electronic platform for data sharing and collaboration between an organization and its clients."

We truly believe it will be a game changer for our Agri-Energy Partners. Stay tuned for your invite to join us on your secure portal...

WHAT'S INSIDE THIS ISSUE?

- **Client Profile: Rolling Hills Therapy**

Local Business Spotlight

One of our goals at Agri-Energy Partners is to celebrate Rural communities and the great members who connect us all together. We will be regularly featuring clients and their family members who have exciting stories to share. This issue of the "Home Quarter", we are featuring Rolling Hills Therapy Ltd.

Born and raised on a farm in Chauvin, Alberta where Dusty Haldenby started and continues to operate Rolling Hills Therapy LTD. offering Register Massage Therapy, Laser Therapy, Myofascial Cupping and Kinesiology Taping to human clients AND offers Massage, Laser and Energy Therapy to her Animal clients.

Working on horses, cattle and dogs. Dusty enjoys healing people and animals. She loves seeing everyone feel better after treatments. You can find out more about Rolling Hills Therapy on Facebook @rollinghilltherapyLTD; Instagram @rollinghillstherapy; www.rollinghillstherapy.com/

ATTN. REPSOL LANDOWNERS

PLEASE BE ADVISED

There have been several changes in the REPSOL land department that are impacting our requests for rent reviews, damages and new acquisitions. The land coordinator for our region has recently left the organization and we are once again without a local contact. Importantly, you may receive phone calls and visits from other land brokers who have not worked with Agri-Energy before and will not be educated in our services to support you. Please refer them to us and let us know they have been in contact so we can ensure you are represented.

Air Miles Winners

Big Congratulations to our Air Miles Contest Winners!

Grand Prize Winner of 2500 bonus Airmiles went to the **Baier Family!** 1000 bonus miles also went out to **Terry and Doreen Ruggles.**

Stay tuned for more exciting air miles rewards opportunities and if you haven't sent us your air miles number yet, please do. Every transaction with Agri-Energy Partners rewards you:)

Meeting with MLA

In June, Todd and Wendy reached out to Alberta MLA, Garth Rowswell to discuss the extreme delays in Alberta Landowner applications for rental recoveries. On behalf of our Alberta landowners, we expressed our concern for the lack of resources in the government offices responsible for this program and how it is affecting our clients and their neighbours. MLA Rowswell committed to sharing these concerns and frustrations with his colleagues and get back to us with an update. We plan on advocating on behalf of our partners in both Alberta and Saskatchewan on a regular basis to improve various situations for landowners.
